

General

Can I download a bid packet from a different base or crew position?

Yep! Just select the base or crew position during the new bid process. This might be helpful if you are changing bases next month and you'd like to see what the lines look like.

Do I need an Internet connection?

Yes and no. You only need a connection to download the bid package and then to submit your bid. Working on your bid can be done without Internet or in airplane mode. Your work is saved within the app automatically, so if you close the app and come back later all your lines will be waiting for you just like you left them!

What's a third party server and why do I care?

Each month, the company puts the new bid packages on a server it has set aside for us that use third-party bidding applications. When you submit your bid through CrewBid, we upload it to that same server. But remember, the company's server can sometimes get overloaded when a lot of people try to submit their bids all at the last minute. So be a smart bidder—get your bid in early!

I have two iPads. Do I have to buy two subscriptions?

No. The App syncs your subscription information through iCloud. Be sure you are signed into the same iCloud account on both iPads. Also be sure your "Documents and Data" storage is enabled. To do this open Settings → iCloud → Documents and Data. Make sure this is On and that CrewBid is On.

Can I bid Round Two with CrewBid?

Yes. One caveat though. Some round two lines contain trips for which the company does not provide us detailed trip information. When a line contains one of these trips we display a warning symbol.

I picked up or traded a trip. Can I print the Trip Sheet and add it to my Calendar?

Yes. Tap the Bid Actions icon in the top right corner (square with the arrow) → Show File → Trips Text → Bid Actions Button → Show Trip → enter the trip number and the start date → Go → Add Trip to Calendar or Print Trip Sheet

Filters

I only see four filters. Can I add more?

Yes. Tap the "+" button and select as many filters as you like. Remember, if you select too many filters there may not be any line that meet all of those parameters and the Scratchpad will be blank.

When I touch the AM Lines button, it grays out and the number of lines in the Scratchpad decreases.

What you are doing is deselecting the AM Lines, so it makes sense that the number decreases (since these lines are now filtered out!).

How do I get lines back in the Scratchpad?

Just tap the AM Lines button again.

I see a single line in the Scratchpad I like. How do I move it to the Bid List?

Tap the single arrow ">" in the bottom right corner of the line.

I've Filtered and then Sorted the lines in the Scratchpad. How do I move them all over to the Bid List at the same time?

Tap the double arrow ">>" to move them.

I've selected several filters and now the Scratchpad is just a gray box. What happened?

You selected too many filters and now there are no lines that meet the criteria you were looking for. Select fewer filters and you'll get some lines back.

Sorts

I tapped the Sort button and all I see is a gray box – what happened?

Unlike with the Filters, there are no default Sorts. Tap the + to select a Sort of your choosing from the list. This re-orders all of the lines in the Scratchpad.

I have a few Sort functions selected. How do I change the order?

Tap the === button on the right side of the Sort, hold it down and drag to where you want it.

I have Pay [High to Low] first in my sort list, followed by Legs [Low to High]. Why don't the lines with the lowest number of Legs show up first?

Since Pay is the first Sort function, two or more lines would have to have the same Pay in order for the second Sort function to work. Try moving Legs to the top of the Sort order. Now you will be sorting lines with the lowest number of legs first, then when two or more lines have the same number of legs they will be sorted by highest pay

Other bidding programs sort by points, weights and/or constraints. Are there plans to implement any of these functions?

No. We think that Filtering, then Sorting, then saving as a Preset provides much more control over the lines you move from the Scratchpad to the Bid List. You also get a marker that tells you what filters and sorts were selected when you moved multiple lines. Say you have a line with 50 points. Does that line have one 50 point value, two 25 point values, or five, 10 point values?

Presets

I created a Preset and now it's gone?

Presets are crew position and bidding round specific. So Round 1 Pilot presets will only carry over to Round 1 Pilot bids each month, Round 1 FA to Round 1 FA, etc.

Why would I create more than one Preset?

You can save your first choice of Filters and Sorts as a Preset. If this doesn't produce enough lines for your seniority you'll need to bid more lines. This is where more Presets come in handy. Your second Preset would be your second choice of lines. Create as many Presets as you like. Give them a name then use them next month.

Bid List

How do I get to the Bid List?

In the right hand column, tap Bids in the upper right corner. This column toggles between your Bid List and the Filters/Sorts/Preset list.

Can I change the line values that I see?

Sure. Just long press (that's a tap that lasts about ½ a second) anywhere in the line value section of any line. You can choose any five values.

I'm getting old. How can I make the mini calendar bigger?

Just tap it. And while you are at it you can tap any of the trips to look at their details as well.

What are the circles used for?

Tap the circle. Now it is selected. Tap the "ooo" more button, and choose what you'd like to do with those lines.

I need to start over. Is there a quick way?

Yes. When in the Bid List, tap the "ooo" more button. Tap "Start Over."

How can I move one line?

Two ways. First, tap the circle. Now it is selected. Tap where you would like to move that line and choose "Insert Lines Above or Below." That inserts a "Move Lines Here" banner. Tap the "ooo" more button, and choose "Move Selected Line". Second way: touch and hold the "===" on the right side of the line and drag the line where you'd like it to go.

How can I move several lines at once?

Tap the circles on the lines you want to move. Now they are selected. Tap where you would like to move those lines and choose "Insert Lines Above or Below." That inserts a "Move Lines Here" banner. Tap the "ooo" more button, and choose "Move Selected Lines".

How do I move the "Insert or Move Lines Here" bar?

Tap the line where you would like the bar to be. Choose "Insert lines Above" or "Insert Lines Below," depending on whether you want the lines to be inserted above or below the tapped line.

Scratchpad

How do I see more displayed Line Values?

Just long press (that's a tap that lasts about ½ a second) anywhere in the line value section of any line. You can choose any five values.

What are the numbers on the left side of the Scratchpad?

The Pilot version has two sets of numbers. The smaller number in the top left corner is the order of that line in the Scratchpad. The larger number in the middle right is the line number. The Flight Attendant version has the line number and ABCD position display.

How do I see more details of a trip?

Tap the trip and the trip sheet pops up. To get rid of the trip sheet, just tap anywhere else on the screen.

I tapped the X. What happened to that line?

It was trashed so you don't have to see it anymore. To get it back, tap the curved refresh arrow on the upper left corner of the window.

What is the > in the bottom right corner of the line?

This arrow moves just that line over to the Bid List.

How do I move all lines currently in the Scratchpad to the Bid List?

Tap the double arrow >> in the top right corner.

Submitting Bids

How do I make sure my bid was received by SWA? Or I did not get a Bid Receipt in my company email.

You can confirm the bid receipt you get from the app is the same one the company has on file by logging onto SWAlife>Flight Ops>Our Business>bid info from the dropdown menu>Bid Info>select Function>Search Bids>select Round and Submission type>Search.

You will not get an email to your wnco email address. This is an EBS only function.

Retrieving Bids

The Awards are posted. How do I see my Line?

Tap the Bid Actions icon in the top right corner (square with the arrow).
Tap Show Awards. This will show the Monthly Bid Line Award List. To get your award,
Tap the Bid Actions icon in the top right corner (square with the arrow) → Show
Awarded Line → Enter EID

Can I print my trip sheets?

Yes. Tap the Bid Actions icon in the top right corner (square with the arrow).
Tap Show Awards. Tap the Actions button. Tap Show Awarded Line. Enter Employee
number. Tap the Actions button. Tap Print Line xxx Trip Sheets.

Calendar

When lines are awarded, can I automatically add my line to my calendar?

Yes. Tap the Bid Actions icon in the top right corner (square with the arrow).
Tap Retrieve Awards. Enter your EID and password. Tap the Actions button. Tap Add
Awarded Line to Calendar. Enter Employee number. Then choose which calendar you
would like to use.

I picked up or traded a trip. How do I add it to my Calendar?

Tap the Bid Actions icon in the top right corner (square with the arrow) → Show File →
Trips Text → Bid Actions Button → Show Trip → enter the trip number and the start
date → Go → Add Trip to Calendar.

Can I print my Calendar?

Apple has not given us clean way to print a monthly Calendar. Once you've added all
your trips to the Calendar you could take a screenshot and print that. Better yet, go
paperless and use iCloud Calendar syncing to share your Calendar with anyone with an
iPad or iPhone.

Flight Attendants

Can I use CrewBid to Buddy Bid?

Not yet. We are clarifying a few details with the company. As soon as we are confident we have the right implementation we will update the app.

Can I submit a Job Share bid?

No. This is an issue with the third party server.

Why are some positions in the Scratchpad grayed out?

Positions can be grayed out for three reasons: they have been filtered out, they were already moved to the Bid List, or they are not available for that line.

How do I position repeat? I want B-A-C.

In the Sorts view, tap the + button, tap Position, tap Quick Add A-B-C. Now drag Position B to the top. Notice that the lines in the Scratchpad all get reordered into B-C-A order.

How do I bid down to Reserve in round 1.

Just move one line from the Scratchpad over to the Bid List. Tap the top line, insert a reserve line and drag it to the top of the Bid List.

In Round two bidding, what is the Purple M?

It means that line has Multiple positions within it.

Pilots

Is there an Export to FFDO function?

Yes. Tap the Bid Actions icon in the top right corner (square with the arrow). Tap Show Awards. Tap the Actions button. Tap Show Awarded Line. Enter Employee number. Tap the Actions button. Tap Export to FFDO Format.

I picked up or traded a trip. How do I Export it?

Tap the Bid Actions icon in the top right corner (square with the arrow) → Show File → Trips Text → Bid Actions Button → Show Trip → enter the trip number and the start date → Go → Export to FFDO Format

Why doesn't CrewBid calculate overlap?

Due to the Part 117 rules. We have no way to sign onto CWA and get your FDP's or Block hours to make the calculation. This is a dynamic hourly calculation that looks back and forward 168 hours, 672 hours, and 365 days. Having you manually input your times like you could in the past is just not accurate enough and may cause you to bid on a line you are not legal for.

The logo for SWAPtimizer is a horizontal orange button with rounded corners. The text "SWAPtimizer" is centered on the button in a black, sans-serif font. The button has a slight gradient and a soft shadow.

Please visit swaptimizer2.com for all of the latest developments regarding The SWAPtimizer.

We created a whole new Help menu just for SWAPtimizer. Tap the ? and you'll see the SWAPtimizer logo
