

## Latest News Alert

### **March 17, 2016**

Wow, we definitely lost sleep over the transition to user accounts, but it went amazingly well.

Apple approved Version 7.0.15 yesterday, and it is a mandatory update, and it fixes the crash when First Officers submit a bid with just one bid avoidance number.

### **March 3, 2016**

Today's "Latest News Alert" only applies to you if you are having trouble creating the new user account, or have not yet created your new user account.

Well, the transition to user accounts is going pretty well, but about 10% of users are having trouble creating their user account.

When the "Create Account" view is showing and you have entered all your account data, be sure to touch the "Create Account" button lower right and NOT the "Done" button at the upper right.

Then, after you get a message back in the app saying that your account is created, you can touch the “Done” button.

Finally, if you are just not able to get your user account created in CrewBid iPad app, there is an alternate way to create your account.

Go to [www.crewbidmax.com](http://www.crewbidmax.com) and create an account. While you are there, you might as well browse around to see all the new subscription options (Subscribe Here button).

If you create your account on [www.crewbidmax.com](http://www.crewbidmax.com), you can then go back to CrewBid and during the validation and account creation phase the app will import your account.

## **March 2, 2016**

Wow! There are Big Changes to CrewBid this month.

Here is an overview of the changes:

- WBidMax Vacation Predictions also available in CrewBid (**Pilots Only**)
- New Max Subscription
- 6 New Subscription Options
- New Account and Subscription System
- New WBidMax and Swaptimizer Button for Vacation Predictions (**Pilots Only**)
- New User Account
- New CrewBid Version Display
- Expectations for the Future

## **WBidMax Vacation Predictions**

You will now have the option to get the legendary WBidMax vacation predictions (along with Swaptimizer if you choose to do so) in the CrewBid iPad app.

## **What does this cost for the WBidMax vacation predictions in CrewBid?**

Less than \$0.62/month more than your current 6 month subscription. Yes, that is correct, less than 62 cents/month.

## **How Can I get the WBidMax vacation predictions (Pilots Only)?**

You can only get the WBidMax predictions by upgrading your subscription to a MAX subscription, and that is done on the [www.crewbidmax.com](http://www.crewbidmax.com) website.

## **Are Swaptimizer predictions included with the MAX subscription (Pilots Only)?**

No, if you choose to still use Swaptimizer for your vacation predictions (and you should), you would continue to do so at [www.swaptimizer.com](http://www.swaptimizer.com).

## **What do you mean it only costs 62 cents for WBidMax vacation predictions?**

OK, we need to show you a little math.

A CrewBid only subscription is \$47.60 per year (two 6 month subscriptions plus tax).

The lowest cost MAX subscription (which includes WBidMax vacation predictions) is \$55/year.

So if you take \$55 and subtract \$47.60, that means the MAX subscription is \$7.40 more for the year. If you divide \$7.40 by 12 months, you can see that it costs just less than 62 cents per month more for a MAX subscription.

## What do you get with a MAX subscription?

With a MAX subscription you get all of the following:

- CrewBid app with WBidMax Vacation Predictions
- WBidMax on PC, iPad, and Mac
- WBidValet (new app under testing)

## How Do I get a MAX subscription?

Very simple, login to [www.crewbidmax.com](http://www.crewbidmax.com) and go to the My Account page and subscribe

## Hey, I already have a 6 month CrewBid subscription – can I upgrade NOW?

Yes! You will NOT lose any paid days. Your current subscription days have value and will be prorated towards your NEW MAX subscription. You should upgrade **NOW!**

## What Subscription options do I have?

Can i upgrade early to a CrewBidMax Subscription?

**Absolutely YES!** You will not loose any paid days, and your new CrewBidMax subscription will be prorated and added on to your current subscription date!

Auto renew means your credit card or paypal account will be automatically charged each month or year - no hassles!

**CrewBidMax Subscription**

| Subscription Type | Price               | Label           |
|-------------------|---------------------|-----------------|
| Auto renew        | Subscribe \$5/Month | Most Convenient |
| Onetime Payment   | Buy Now \$5/Month   |                 |
| Auto renew        | Subscribe \$55/YEAR |                 |
| Onetime Payment   | Buy Now \$55/YEAR   |                 |

**Best Choice** (indicated by a green arrow pointing to the \$55/year options)

**CrewBid Only!**

| Subscription Type | Price                  | Label      |
|-------------------|------------------------|------------|
| Auto renew        | Subscribe \$42.99/YEAR | Best Value |
| Onetime Payment   | Buy Now \$42.99/YEAR   |            |

Includes: CrewBid, WBidMax (iPad, PC, Mac), WBid Vacation Predictions, WBid Valet (new), and soon WBidMax Vacation Predictions inside CrewBid.

As you can see above, there are 6 subscriptions buttons, which means you have 6 subscription choices.

Let's talk about the 4 subscription buttons on the left.

You can make a one-month subscription (\$5) or an annual subscription (\$55). Also, you can have the subscription

automatically renew (most choose this option), or it can be onetime.

The most convenient and cost effective subscription is \$55/year that “Auto Renews”.

Note you can pay with your credit card or with a PayPal account – your choice.

BTW, you can always come back to the website and cancel any Auto Renewing subscription.

The two subscription choices on the right are for “CrewBid ONLY” subscribers. It is the lowest cost “CrewBid ONLY” subscription.

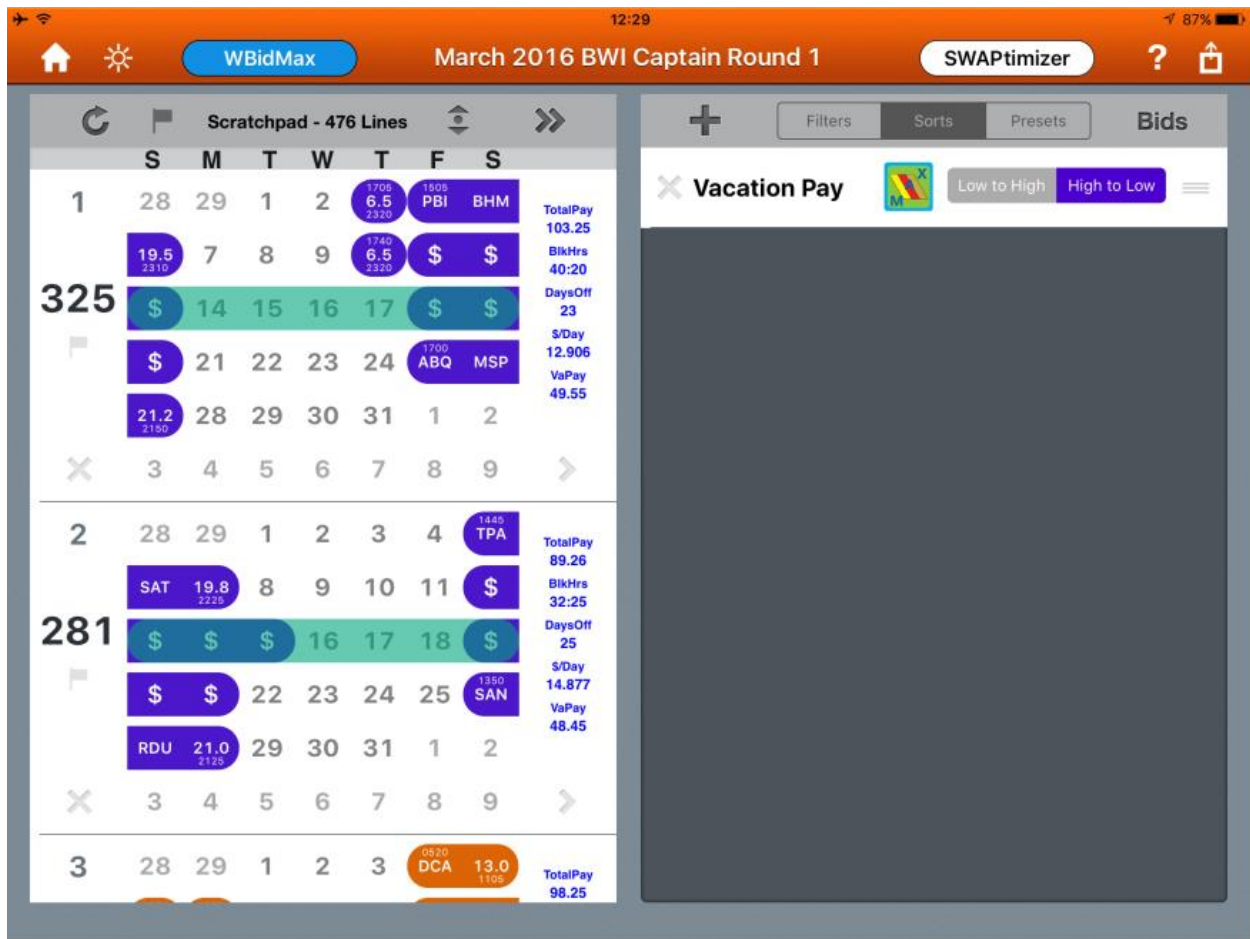

You will not get WBidMax vacation predictions with a “CrewBid ONLY” subscription. But for some that is OK, and this also is cheaper than subscribing via the app.

## **New Account and Subscription System**

We have moved the record keeping for all of your subscriptions to our own secure database. In the past it was difficult for users to use their CrewBid account on other iPads, because the subscription was associated with their AppleID and the AppleID that was signed into on the iPad. Having subscription problems is no longer the case. You can install CrewBid on any iPad or multiple iPads and have your subscription work on all devices.

## **How Do I get WBidMax vacation predictions into the CrewBid App (Pilots Only)?**

Very simple, just touch the “WBidMax” button as shown below:

Also note above, that with the Swaptimizer button you can also switch to SWAPtimizer vacation data!

### **Which Vacation Prediction Data is better?**

Only you will be able to know! The prediction algorithms are different. Here is how Ralph from Swaptimizer addresses this issue:

*... each program (Frank's and mine) has its own algorithm, because there are basically NO published rules at all. In this regard, SWAPtimizer tends to predict fairly conservatively, without overlooking every good payday possibility. But that means that we still miss high sometimes, as well as missing low. My impression is that WBid is perhaps somewhat more aggressive in this area, although I don't do side-by-side comparisons. (I don't think Frank*

*does either, as my data is copyrighted for personal use only -- even with a subscription.*

I agree with Ralphs above statement except for the "more aggressive" approach. WBidMax predictions are NOT aggressive. We simply predict how we believe the correction will be made.

**Awesome – I can NOW save about \$32 a year by NOT getting Swaptimizer (Pilots Only)!**

The total cost to bid using CrewBid with Swaptimizer is \$87.60/year

If you choose to use just WBidMax vacation predictions, your annual cost will be \$55.00

That is an annual savings of \$32.60

**Saving dollars and losing 1000's**

When it comes to vacation predictions, we are talking about 1000's of dollars every time you have vacation. This occurs between 1 and 5 times a year for all pilots.

By using Swaptimizer and WBidMax vacation predictions, you will get the absolute best advance intelligence of how your vacation is predicted to be paid. Swaptimizer and

WBidMax agree on a majority of the lines, but when there are gray areas – we differ.

By using both predictions, you can look at each line more closely to determine which prediction you believe has more accuracy!

## WE HIGHLY RECOMMEND USING BOTH WBidMax and Swaptimizer Predictions!

Don't forget, that WBidMax also has enhanced flight data displays. You will be able to see where WBidMax is predicting the split of a trip – if any.

Here is a sample display of a trip and the enhanced flight display regarding flights pulled for pay or NO pay.

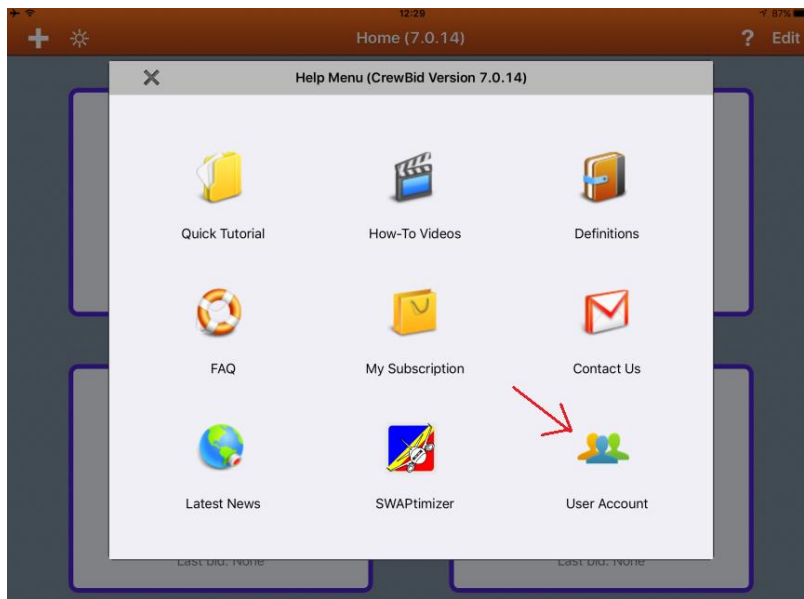

The screenshot displays the WBidMax software interface. At the top, there's a header bar with various icons and the text "DEN - FO - 1st Rnd - Mar - 2016 (Not in Domicile) Reset Misc Help Bid Stuff". Below this is a navigation bar with tabs: Summary, BidLine, Modern, Line No., Pairing, QS, OVR, VAC, DRP, EOM, CSW. The main area is divided into two panels. The left panel shows a calendar view for a trip, with columns for days of the week (Sun, Mon, Tue, Wed, Thu, Fri, Sat) and rows for flight numbers (e.g., 0955, 0800, 1745, 0645, 1545, 0900, 0645, 1530, 1645, 0755, 0606, 1630, 1440). The right panel shows a detailed view of a pairing, titled "Pairing CAH1", with columns for flight number, out, in, block, pay, and remarks. The flights are color-coded: red for "NO pay", light green for "WITH pay (VO)", and bright green for "WITH pay (VO)".

| Line | MyValue | Wts  | Pay    | WkEnd | A/P | Off | T234 | Flt   | S/Hr | VacPay | Volnt | Volat | VDrop | SEL | MOV |
|------|---------|------|--------|-------|-----|-----|------|-------|------|--------|-------|-------|-------|-----|-----|
| 1    | 101.55  | 0.00 | 101.55 | wkday | AM  | 22  | 0030 | 64:00 | 1.59 | 26.25  | 0.00  | 0.00  | 0.00  |     |     |
| 2    |         |      |        |       |     |     |      |       |      |        |       |       |       |     |     |
| 3    |         |      |        |       |     |     |      |       |      |        |       |       |       |     |     |
| 4    |         |      |        |       |     |     |      |       |      |        |       |       |       |     |     |
| 5    |         |      |        |       |     |     |      |       |      |        |       |       |       |     |     |
| 6    |         |      |        |       |     |     |      |       |      |        |       |       |       |     |     |
| 7    |         |      |        |       |     |     |      |       |      |        |       |       |       |     |     |
| 8    |         |      |        |       |     |     |      |       |      |        |       |       |       |     |     |
| 9    |         |      |        |       |     |     |      |       |      |        |       |       |       |     |     |
| 10   |         |      |        |       |     |     |      |       |      |        |       |       |       |     |     |
| 11   |         |      |        |       |     |     |      |       |      |        |       |       |       |     |     |
| 12   |         |      |        |       |     |     |      |       |      |        |       |       |       |     |     |
| 13   |         |      |        |       |     |     |      |       |      |        |       |       |       |     |     |
| 14   | 94.05   | 0.00 | 94.05  | wkend | AM  | 22  | 0030 | 57:25 | 1.64 | 26.25  | 0.00  | 0.00  | 0.00  |     |     |

The flights with a RED background are predicted to be pulled with NO pay. The flights with a light green background are predicted to be paid WITH pay (VO), and the flights with a bright GREEN

background are trips pulled with pay during your vacation week.

Remember: with your MAX subscription, you can have both CrewBid and WBidMax installed on your iPad and use both with your MAX subscription.

### **New USER Account**

By transitioning to our new Subscription Sytem, we have created a User Account.

In the HELP view (? Icon), you will now see the User Account icon. You

can always update your user account by touching this icon.

### **Here is what you will now see:**

When you touch the User Account icon in the Help Menu view, here is what you will see.

12:29 Home (7.0.14) ? Edit

**Note the Password button above!** This password is only for setting or updating your MAX password.

You use your MAX password only for logging into [www.crewbidmax.com](http://www.crewbidmax.com) or [www.wbidmax.com](http://www.wbidmax.com)

When you download bid data, you will still use your CWA Password.

### **Your CrewBid Version**

The Home view now displays the version of CrewBid that you are using.

## **What Can you expect for the Future of CrewBid?**

Our survey of users has detected two very different types of USERS.

**Type 1** hates change. We experience so much change on a weekly basis, that the last thing users want is constant changes to their bid program.

**Type 2** users want state of the art. These users are always looking for the next improvement to their bidding experience.

CrewBid will cater to **Type 1** users (hate change). There will be occasional updates to CrewBid to improve functionality, but it will not change very often. We will continue to test for all new iOS operating system releases, because APPLE is notorious for breaking apps when they release a new iOS. WBidMax will cater to **Type 2** users (state of the art). You can expect an update each month. The basic USER experience in WBidMax will not change, but new and

somewhat revolutionary features will always come out of our Research and Development shop.

As always, if you have any questions, please don't hesitate to send an email. If you have NOT heard back from us in a day, then please check your JUNK folder, because we respond to all emails in less than a day.

[support@crewbidapp.com](mailto:support@crewbidapp.com)

## **February 3, 2016**

### **Flt Attendants**

We were caught by surprise in that there are NOW 4 days pairings in some of the "D" position lines. There are not many of them, so if you want to avoid 4 day trips, here is how we suggest you do so:

If you want to avoid, filter by A,B,C so only the D lines show in the scratchpad. The scroll to the lines with the 4 day trips and then touch the X in the lower left corner of the line to trash that line.

We will be adding a 4-day filter for the next months version.

## **February 2, 2016**

The latest Version is 1.1.10

## Pilots

You will now get an alert if you attempt to submit a bid with the Blank Lines out of order. This alert will allow you to fix the problem.

## New Subscription Options – Next Month

Can i upgrade early to a **CrewBidMax** Subscription?

**Absolutely YES!** You will not loose any paid days, and your new CrewBidMax subscription will be prorated and added on to your current subscription date!

Auto renew means your credit card or paypal account will be automatically charged each month or year - no hassles!

**CrewBidMax Subscription**

|                                                                                                         |                            |                                                                                                         |                   |

**CrewBid Only!**

|                                                                                                            |
|------------------------------------------------------------------------------------------------------------|
| <p>Auto renew</p> <p>Subscribe <b>\$42.99/YEAR</b></p> <p>MasterCard VISA American Express Discover</p>    |
| <p>Onetime Payment</p> <p>Buy Now <b>\$42.99/YEAR</b></p> <p>MasterCard VISA American Express Discover</p> |

**CrewBid Only!**

Includes: CrewBid, WBidMax (IPad, PC, Mac), WBid Vacation Predictions, WBid Valet (new), and soon WbidMax Vacation Predictions inside CrewBid.

Next month, you will have the option to upgrade your CrewBid subscription to a CrewBidMax subscription – completely optional.

The CrewBidMax subscription will allow you to do monthly or annual subscriptions. Additionally, you will be able to set it up as a recurring subscription (automatic payment).

Most importantly, Vacation Predictions (from WBidMax) will be included in the CrewBidMax subscription.

The CrewBidMax subscription is \$5/month or \$55/year. It can be a onetime payment or set up as recurring.

The CrewBidMax subscription will also allow you to use not only CrewBid but also WBidMax and soon to come Bid Valet (iPhone and Android base based bid app).

Finally, for those who do not want to upgrade to the CrewBidMax subscription, we will offer a new CrewBid only annual subscription for \$42.99. The effective month cost is \$3.58 which is less than the current subscription options.

## **January 2, 2016**

The latest Version is 1.1.8. You can check to see which version you're running by accessing the Help Menu by tapping the "?" button in the top right.

**Caution for Flight Attendants**

Because of the irregular bid month and a leap year, CrewBid is not calculating the days off correctly. All the other properties appear to be calculating properly. We have found the problem, but unfortunately, there will not be time to get a new version approved by Apple.

As an alternative, you can use WBidMax, (download from the App store), and take advantage of their free first month. If Days OFF is a critical sort property for you, there is a work around you can use to accomplish the same Filtering or Sorting.

In the scratch pad on the right hand side, long press on the data block and the “Line Values” menu will appear. Touch Days Off to remove that property. Now touch “Work Days” to add that property.

Sorting on Work Days low to high is the exact same as sorting of Days Off high to low.

### Caution for Pilots

We’ve had reports of bidders having their blank lines submitted in reverse order. We finally found the problem. If you select lines with the SELECT circle and then move those selected lines, they will move in the order you have selected. If you want to move blank lines as a group in your bid, be sure you select the lowest blank line then the next and so forth before moving. Even though this

behavior has existed for two years, we will have a code fix that prevents this probably by next month.

## **October 1, 2015**

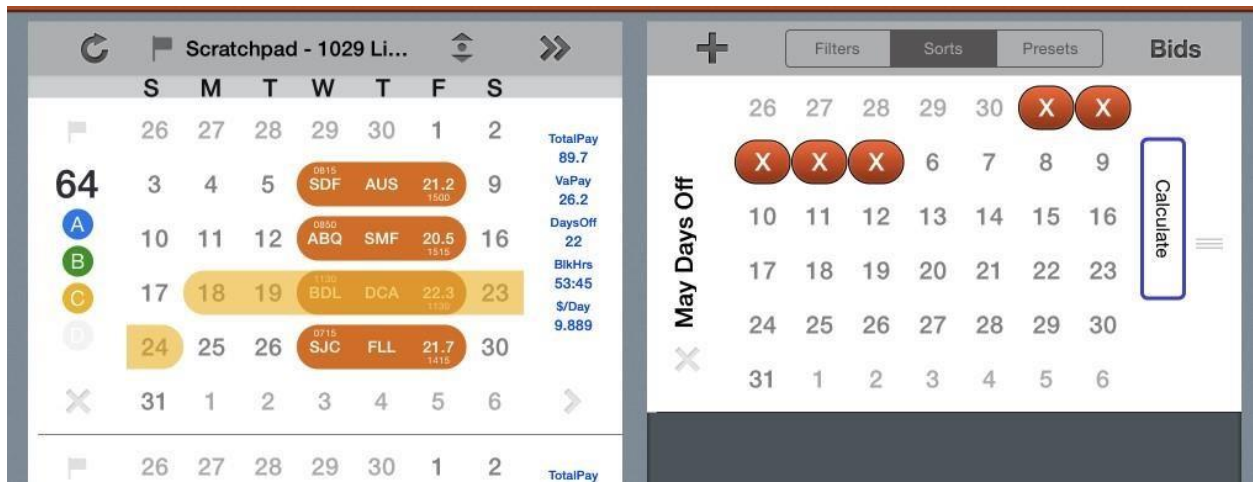

Version 1.1.6 is now available. You can check to see which version you're running by accessing the Help Menu by tapping the "?" button in the top right.

We have spent a month testing and fixing all the items that iOS 9.0 broke in CrewBid. The good news is we think we found all the problem areas and CrewBid 1.1.6 is good to go with iOS 9.0

## **April 2, 2015**

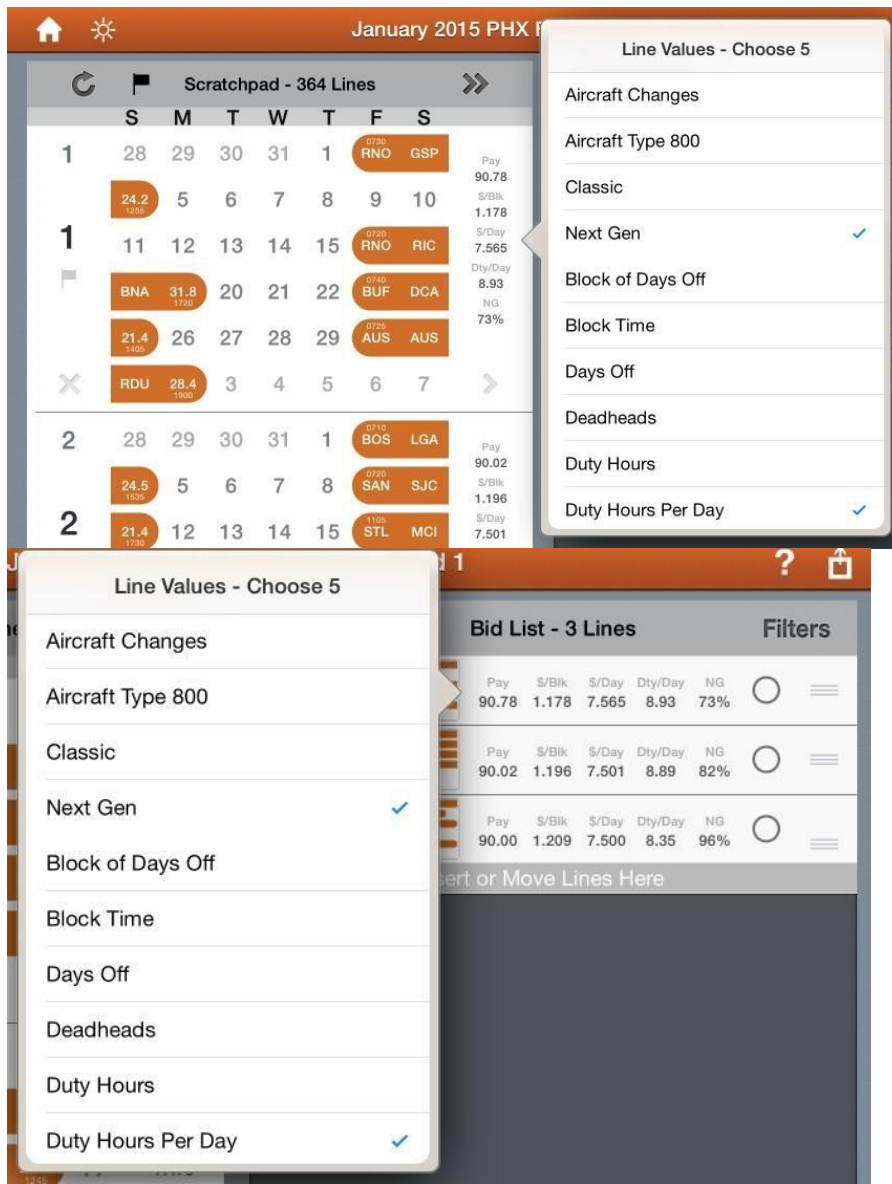

Version 1.1.3 is now available. You can check to see which version you're running by accessing the Help Menu by tapping the "?" button in the top right.

Introducing the new Days of the Month Off Sort! You can access it by going to Sorts →→ "+" Button →→ Days of the Month Off. Don't forget to tap Calculate after you've selected your days off!

## Did you know...

You can change the values that are displayed for each line by long pressing (tap and hold for about half a second) on the line values, anywhere they appear. The currently displayed line values are included in your Presets when you create them. See examples below:

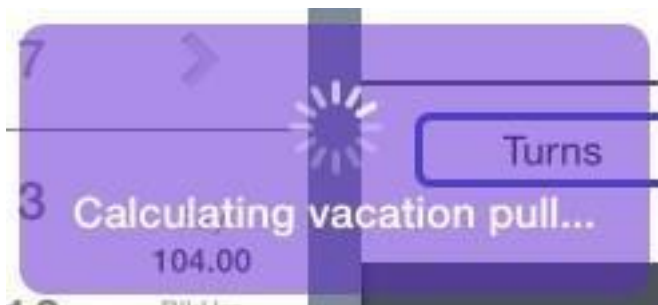

**December 2, 2014**

New Version 1.1! Go to the App Store to update!

Holy smokes there's a lot of new stuff!

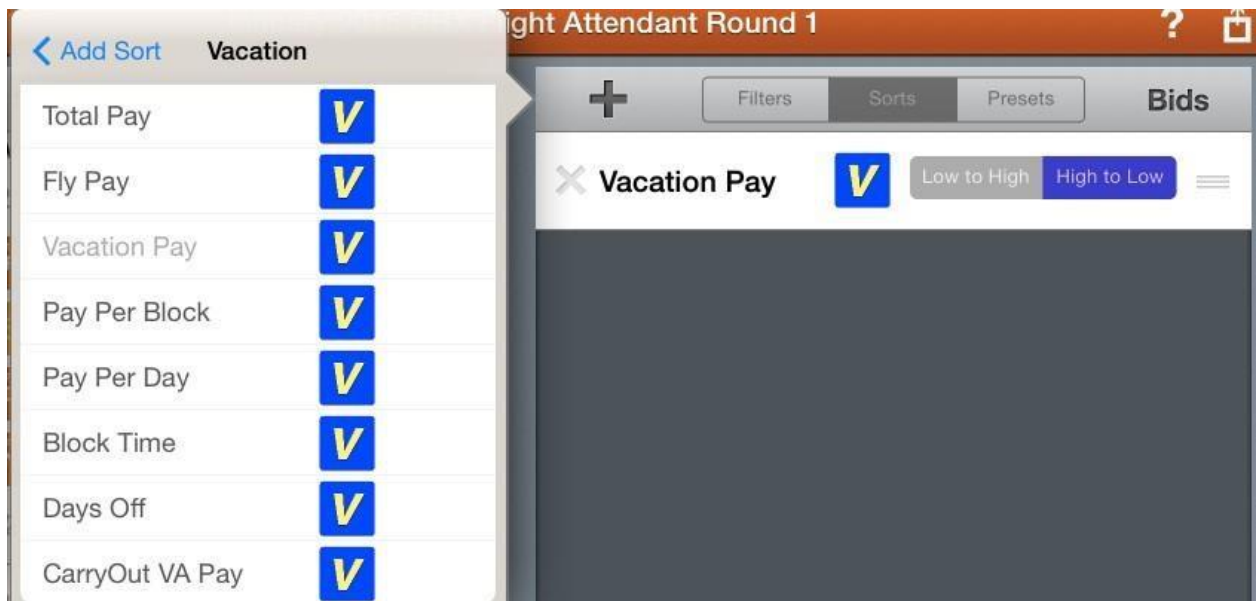

## 1) Flight Attendant Vacation Pull Optimization

CrewBid automatically detects FA vacation and perform the vacation pull optimization. If it does not, then you can manually enter a vacation in the Vacation menu. Just tap the Bid Actions button (top right), Vacation →→ Manage Vacations.

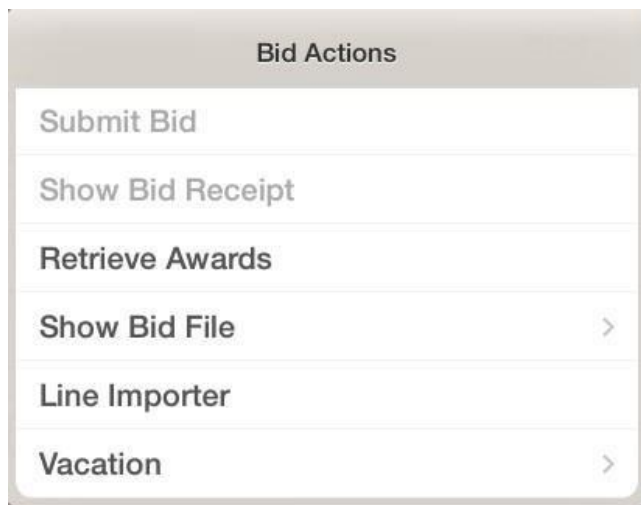

| Scratchpad - 921 Lines |    |                     |                     |                     |                     |    |    |

28.7  
**\$/Blk**  
1.744  
**\$/Day**  
9.909  
**BlkHrs**  
62:40

2) **Vacation management options:** users can show, hide, delete, and add vacations in the new Vacation menu accessible from the Bid Actions menu (top right).

3) In response to popular demand, users can now choose to **keep pulled trips in the filters and sorts** (in the new Vacation menu accessible from the Bid Actions menu).

This will also include the pulled trips in the gray line values.

- 4) **New “Line Type” filter** makes it more intuitive to distinguish between Continental US and nonContinental US lines

- 5) **Flags**: users can now use multi-colored flags to categorize lines as the user desires

| Scratchpad - 921 Lines |                     |                     |                     |                     |    |    |                 |

**6) Mid Trip Pass Thru Base filter and sort** (requires redownloading the bid package if you update to version 1.1 *after* downloading the bid package with a previous version)

Use this to find lines with trips that can be split.

× Mid-Trip PTBs
 At Least
2

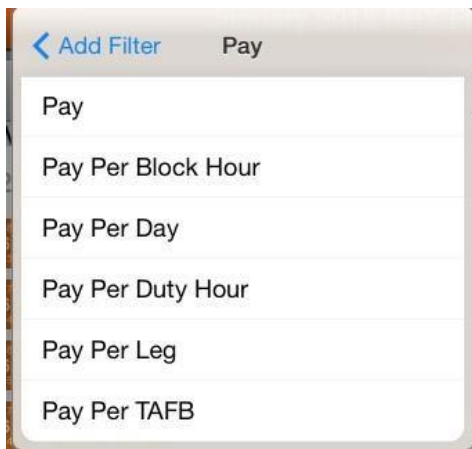

**7) Trip Start Dates Filter** (requires re-downloading the bid package).

Use this to avoid lines with trips that have ELITT restricted days. Find this filter in the “Days of the Month” filter group.

## 8) New Pay filters!

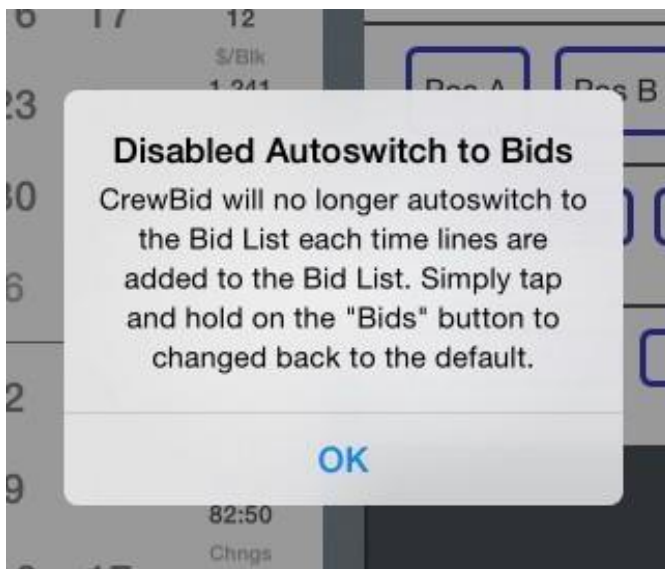

## 9) Duty hours per day line values (requires redownloading the bid package)

**10) Duty hours per day filter and sort** (requires redownloading the bid package)

**11) Users can now **disable/enable the autoswitch to the Bid List**** by long pressing on the “Bids” button. The autoswitch occurs when moving a line from the Scratchpad to the Bid List.

And finally, the standard array of bug fixes and performance improvements, including:

- Confirm deletion of presets
- Additional info in the export to calendar
- Additional fixes for sizing and coloring in iOS 8
- Fixes for trip display in the Bid List calendar view

Happy bidding!

The CrewBid Team

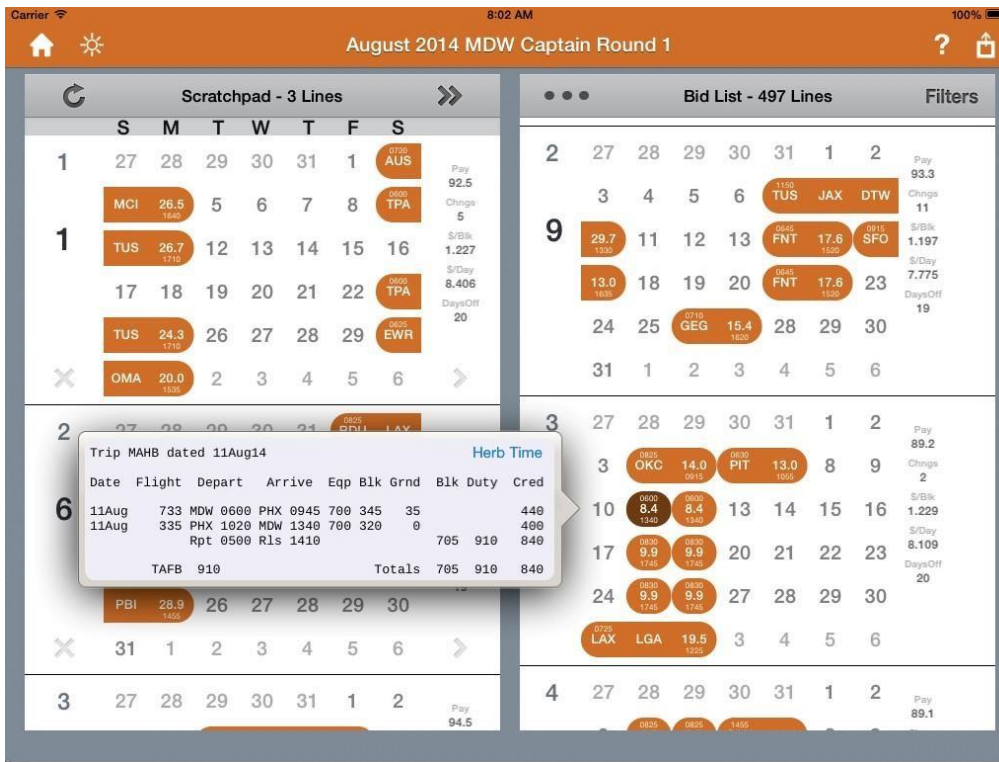

**October 7, 2014**

## New Version 1.0.18!

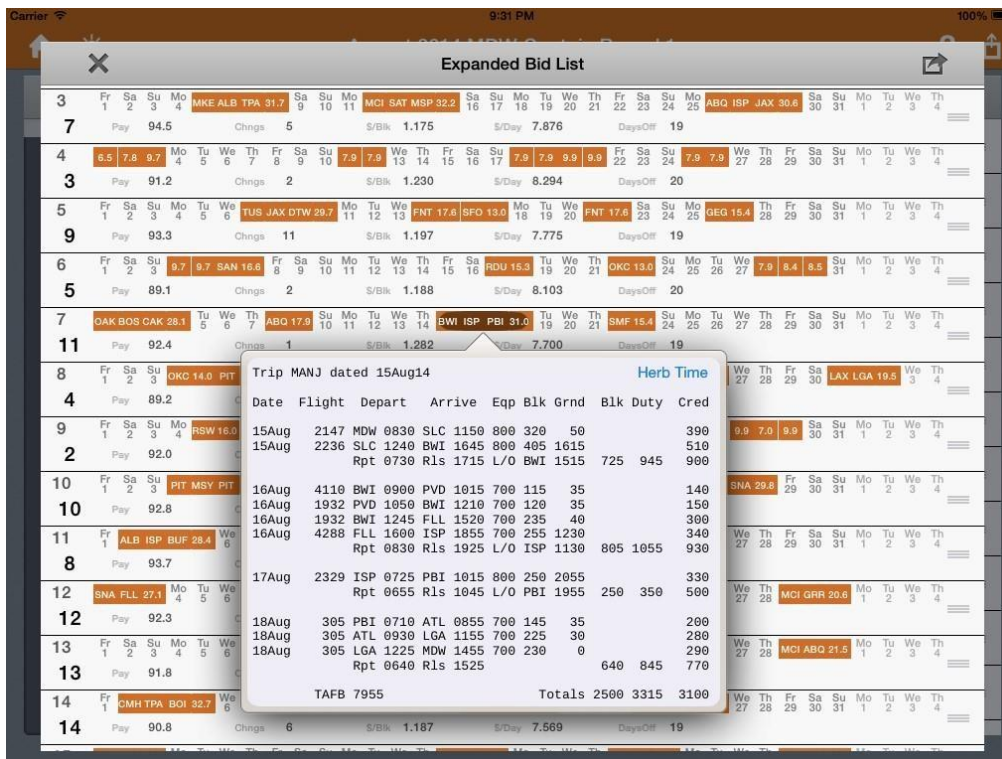

iOS 8 is here and so are we! Version 1.0.18 includes over 150 changes and improvements for compatibility with iOS 8. **Version 1.0.18 also fixes issues that iOS 7.1 users are experiencing.**

And to everyone, don't forget about the two important new features from version 1.0.15:

1 - Scratchpad-style view in the Bid List. **Access by swiping across the Bid List horizontally with TWO fingers.** Swipe again to switch back to the normal view.

2 - An Expanded Bid List view for that final checkout before you submit your bid. **Access by pinching outward to “zoom in” on the Bid List.**

We also fixed numerous bugs and made some optimizations for speed improvements.

Happy bidding!
